Hidden History

Hidden History is a simple letter-substitution cipher. If K equals B in one word, K will equal B throughout the puzzle. Solve by looking for frequently-used letters and common patterns.

JNIK ZSR MKKO YS ROQSO EJNVKH EKGKYKXZ? QY QC HSENYKF KNCY SA KQDJYZ-

© Puzzles by Pappocom

Sudoku is a nine by nine grid. The solution (each puzzle has only one) will have all the numbers from one through nine in every row and every column. In addition, the grid is divided into nine three-by-three sections. Each of these three-by-three sections will also contain all the numbers from one through nine. Each Sudoku puzzle from Pappocom can be solved using logic alone. If you prefer guessing, you can – but there is a logical way to solve every puzzle.

Let's start with the easy puzzle. Working on the middle section of the bottom row that contains 3-4-5-6-9, we can see the 8 in the top middle section will eliminate the spaces below the 4. The 8 in the center section eliminates the space above the 6. This only leaves the space above the 3 for the new 8. You have learned one technique used to solve Sudoku puzzles. There are many more.
