Hidden History

Hidden History is a simple letter-substitution cipher. If K equals B in one word, K will equal B throughout the puzzle. Solve by looking for frequently-used letters and common patterns.

PYEN CQDJJD VXQNB BMD GRIXD BMDYBDE VYPU QC BMD NYBD BMQEBQDJ. QB SYJ

© Puzzles by Pappocom

Sudoku is a nine by nine grid. The solution (each puzzle has only one) will have all the numbers from one through nine in every row and every column. In addition, the grid is divided into nine three-by-three sections. Each of these three-by-three sections will also contain all the numbers from one through nine. Each Sudoku puzzle from Pappocom can be solved using logic alone. If you prefer guessing, you can – but there is a logical way to solve every puzzle.

Lets try to place a 1 in the left section of the middle row of the medium puzzle containing 3-4-9. The 1 in the center section eliminates the spaces to the left and right of the 4. The 8 in the right section of the middle row eliminates the spaces to the left and right of the 9. The 1 in the left section of the top row eliminates the space below the 9. The only place left is two spaces to the right of the 3. You have learned one technique used to solve Sudoku puzzles. There are many more.
