Hidden History

Hidden History is a simple letter-substitution cipher. If K equals B in one word, K will equal B throughout the puzzle. Solve by looking for frequently-used letters and common patterns. Clue at bottom of page.

© Puzzles by Pappocom

Sudoku is a nine by nine grid. The solution (each puzzle has only one) will have all the numbers from one through nine in every row and every column. In addition, the grid is divided into nine three-by-three sections. Each of these three-by-three sections will also contain all the numbers from one through nine. Each Sudoku puzzle from Pappocom can be solved using logic alone. If you prefer guessing, you can – but there is a logical way to solve every puzzle.

Lets put an 8 in the lower right section of the easy puzzle containing 1-5-9. The 8 in the right section of the top row eliminates the spaces above the 9. The 8 in the right section of the middle row eliminates the spaces above and below the 5. The 8 in the left section of the bottom row eliminates the spaces on both sides of the 5. The only place left is two spaces above the 1. This is one way to start solving the puzzles!

1		7		9		8		4
	2		5		1		3	
				8				
	4	9		7		6	8	
7								2
	6	2		3		5	1	
				1				
	8		4		7		5	
2		6		5		9		1
